

# DART SERVICE INSTRUCTION

TO AMEND INSTALLATION INSTRUCTIONS IIN-D212-664 Rev. G OR LATER  
& INSTRUCTIONS FOR CONTINUOUS AIRWORTHINESS ICA-D212-664 Rev. 8 OR LATER  
REF. CANADIAN STC: SH01-9  
REF. FAA STC: SR01298NY  
REF. EASA STC: EASA.IM.R.S.01304

## PURPOSE:

When installed on 214 aircraft, the hose clamps on D212-664-101/101B/-107B/-201B/-207B crosstubes interfere with the aircraft's cap assemblies. The affected crosstubes are D212-664-101/-101B/-201/-201B at CHG 005 and earlier, D212-664-107/-107B at CHG 003 and earlier, and D212-664-207/-207B at CHG 002 and earlier. There is no interference when installed on 204/205/210/212/412 series aircraft.

## CHANGE:

The DSI 9680-011 Support Kit is available from Dart and contains new supports for crosstubes installed on 214 aircraft. The kit can be installed on existing D212-664-101/-101B/-107/-107B/-201/-201B/-207/-207B to correct the interference problem with the aircraft cap assemblies. The new supports reposition the hose clamps to avoid the cap assemblies.

For crosstubes on 214 aircraft, the existing D2893-1 & D2940-1 crosstube supports should be replaced with the new D5017-1 & D5018-1 supports per ICA-D212-664 (section 32.3 and 32.4 of rev. 8 or later revision) using a 13.75" spacing. See Figure 1 of this service instruction for reference.

To reconfigure the crosstubes for a 204/205/210/212/412 series aircraft, the D2893-1 & D2940-1 supports should be reinstalled.

The D5017-1 & D5018-1 supports have been pre-installed on crosstubes at the following change number:

D212-664-101B @ CHG 006  
D212-664-107B @ CHG 004

D212-664-201B @ CHG 006  
D212-664-207B @ CHG 003

For D212-664-101/-107/-201/-207 crosstubes installed on 214 aircraft, it is recommended that the DSI 9680-011 Support Kit be acquired from Dart and installed.

## PARTS LIST:

QTY	Part number	Description
X	DSI 9680-011	SUPPORT KIT, 214
2	D5017-1	SUPPORT, 214 FWD
2	D5018-1	SUPPORT, 214 AFT
